

Wheel bolting **safer, easier, and precise.**

Powered by the B-RAD Battery Torque Wrench

- Precise **+/-5%** Accuracy and **+/-2%** Repeatability
- **Automated Torquing** Minimizes Common Over-Torquing with Manual Torque Wrenches
- Uses Standard **Metabo** CAS Batteries
- Planetary Gear System, **no Impacting Forces**, to Avoid Stud Damage and Over-Torquing

Safer, Easier, and Human Error Mitigated

- Curved Reaction Arm **Minimizes Pinch Points**
- Minimizes **Back Strain** and **Injuries**
- Lack of Impact Force Avoids **Nerve Damage** and **Hearing Loss**
- Gun Can be **Locked at Torque** to Avoid Operator Adjustment and Error

Wheel Bolting Made Faster

- Curved Reaction Arm and Cup Easily **Clear Hubs** and Other Obstructions
- Continuous Turn Torques Quickly

Wheel bolting streamlined.
